MEDICARE SAVINGS PROGRAMS (MSP)

If you are struggling with the costs of Medicare and have limited income and resources, you may qualify for a Medicare Savings Program. EXTRA HELP / LOW-INCOME SUBSIDY

Every year, many individuals find that covering the out-of-pocket costs of prescription drugs is too much for a limited income. If you meet certain income and resource limits, you may qualify for the Extra Help Program. Also known as the Part D Low-Income Subsidy (LIS), Extra Help is a federal program offered through the Social Security Administration (SSA).

Individuals may be eligible for the Extra Help program if their monthly income is below \$1,956 and their resources are below \$17,600. The program pays the costs of Medicare prescription drug coverage including copays, premiums, and deductibles. The following eligibility table summarizes the Extra Help income and resource levels for both individuals and couples.

Extra Help/Low Income Subsidy (LIS)		
	Income	Resources
Individual	\$ 1,956	\$17,600
Couple	\$ 2,644	\$35,130
Out-of-Pocket Costs: Premium: 25 - 75% of cost Deductible: Up to \$99 Copayment: 15% of copayment		

Note: Everyone who is eligible for partial Extra Help will automatically receive full Extra Help.

Beneficiaries will automatically qualify for Extra Help if they are enrolled in Medicaid, Supplemental Security Income (SSI), or a Medicare Savings Program (MSP). A purple-colored notice from the Centers for Medicare and Medicaid Services (CMS) will be mailed informing those beneficiaries that they do not need to apply for Extra Help.
